THE NINTH-OF-MARCH ELECTION-JUDGES AP-POINTED AND RULES ISSUED FOR ITS CON-DUCT-INTERESTING COUNCIL MEETING-AN OPINION OF THE CITY ATTORNEY-DEFEAT BONDS - A SECRET SESSION OF THE COUNCIL-MORTUARY RECORD-MOTION TO UPSET A SALE-RELIGIOUS PERSONALS, &C., &C. [Correspondence of the Richmond Dispatch.] MARCH 2, 1878.

Judge Mann, of the Hustings Court, has made his appointments of the judges and clerks, and issued rules for the conduct of the election to take place on the 9th of March for the ratification or rejection of the act of Assembly to empower the city of Petersburg to organize a Board of Railroad Commissioners, and to acquire the control or ownership of the Petersburg railroad. In making these appointments he has selected citizens of the highest standing in each ward-gentlemen who have not herefore mixed actively in politics, and whose character is a guarantee against anything like fraud. Should they consent to serve a thoroughly fair election is assured. The Judge sets forth at length the rules for the conduct of the election.

At the meeting of the Council last evening the opinion of the City Attorney on the subject of the ownership of the artillery gun-house was read. After a careful examination of the records of the Council and the deed-books in the clerk's office, the Attorney gives the opinion that the gun-house belongs to the State, and the land upon which it stands to the city. The State ap-propriated \$1,900 for the building of the house, and the city gave \$750 for the purchase of the lot. The agreement was that if the property should cease to be used for the artillery company it should be sold, and an equitable division of the proceeds be made between the State and city. The artillery company went into the war, and after the surrender was disbanded at Lynchburg. During its absence the property was used for other purposes, and on the reorganization of the company it was and is now occupied jointly by the Fire Department and the artillery. The Council referred the matter to a special committee for further report, with a view to a compromise.

The Council, by a vote of 9 ayes to 12 noes, rejected the ordinance closing the barber-shops on Sunday. During the debate on this subject it was declared that the State law forbidding Sunday work is a dead law in this city, and should this ordinance pass it would be a dead statute also.

The report of the City Treasurer shows that the cash receipts of the city, from all sources, for the month of February were \$13,400.

BUFFALO LITHIA WATER. THE BUFFALO LITHIA WATERS

IN THE PECULIAR DISEASES OF WOMEN.

THE TESTIMONY OF DR. T. J. WILLIAMSON. OF CINCINNATE, OHIO,

WHOSE SPECIALTY IS DISEASES OF WOMEN.

No. 187 PLUM STREET, CINCINNATI, OHIO, Vr. Thomas F. Goode: Dear Fir.—For the past year I have prescribed the RUFFALU LITHIA WATERS (Spring No. 2) freely in my practice in this city, and with results so uniformly benedicial and gratifying, and at times so remarkable, that it is my desire and purpose to aid as far as I can in the interest of afficient humanity in making known their pasts of the contraction. pose to aid as far as I can in the interest of amilitized humanity in making known their critizordinary virtues, and hence, though entire strangers. I address you as the propristor, this communication. These waters unquestionably possess wonderful powers as a curative agent in many forms of chronic disease. It is, however, their ALMOST SPECIFIC power in the peculiar diseases of women that gives to them their great SUPERIORITY over all of the more noted mineral waters, both of this country

cases of uterine dimentity which have ever come ander my observation have been entirely refleved by the persistent use of those waters, with but little, and in some instances without any, aid from medicine. To make mention of a single case: Mrs. —, of this city, severely afficied, was for four months under the ireatment of some of the most entirest of the medical faculty of Philadelphia, deriving no material benefit from treatment. She returned to this elty and was put upon the LiTHIA WATERS, he use of which for three months resulted in her entire restoration to health.

I have found them equally potent in dismenorhoa and menorrhagia.

rhoes and menorrhadia.

I would especially mention, that I have found this water a sovereign agent in the treatment of persons convalescing from searlet-fever, preventing the distressing and often dangerous dropsical condition to which this disease leaves the system exposed in the damp atmosphere of this city during the fall and winter months. winter months.

In conclusion I would add that my views here given in regard to these waters are the result of off-repeated and thorough praceical tests.

Very respectfully, T. J. WILLIAMSON, M. D. These waters in cases of one dozen half-gallon bottles, can be had AT THE SPRINGS at \$5 per case in advance; in Richmond, of PURCELL, LADD & CO. at \$5.50 per case. THOMAS F. GOODE, de 12-W&Meow Proprietor.
